

avscore nature-environment #01

The most versatile solution for video editing computer software users

keywords:

environment, landscapes, nature, ecology

10 original full length compositions, released in WAV format with their respective alternative remixes lasting about 2 minutes, and a 30-second version which is perfect for broadcast commercials use.

A web-style surfing interface allows an immediate viewing and listening of the musical cuts including their duration, size, style, bpm, tonality and description. Standard WAV file format increases your productivity: one click and they are loaded into the project you're working on. See the [pdf](#)

- **format:** CD ROM Mac/Win (.wav files)
- **# elements:** 30
- **web-style surfing interface**
- **system requirements:** Power Mac or Windows 98 w/dvd drive
